Ninja® Work Gloves

Ninja® gloves are high quality, premium hand protection for daily use. Ninja® gloves feature Hydropellent Technology (HPT™), the palms and finger tips are coated with HPT™ which creates encapsulated air molecules that repel liquids for a firm grip on wet or dry surfaces. Treated with Actifresh to kill bacteria and promote freshness. Ninja® gloves are manufactured using 15 gauge athletic grade nylon shell.

Ninja® HPT™ Cold Weather Gloves

Ninja® HPT™ Cold Weather gloves offer superior protection in cold weather. HPT™ coating allows for increased grip on wet and dry surfaces. Coating remains flexible in temperatures as low as -50 C (-58 F). Features a 15 Ga. black nylon shell with 7 layer terry cloth liner.

Ninja® Ice Coated Gloves

This capable glove not only repels cold, it's treated to repel liquids as well. Ninja® Ice FC Gloves is fully coated to remain soft and flexible in temperatures as low as -58°F (-50°C). Double layer for greater insulation – seven-layer terry liner on the inside and a 15 Ga. nylon liner with HTP™ coating on the outside.

Tsunami Grip® Tuff Hybrid Cut Resistant Gloves

Made with Kevlar® and high-strength fiber-glass fibers. A seamless knit glove, 13 gauge with a level 4 cut protection. Nitrile dipped for increased protection and grip. Tsunami Grip® offers superior cut protection all with high dexterity.
